13th April 2020

# Zoom in on Energy Equality

We've now firmed up on the details for our ***Zoom in on Energy Equality*** video conference, announced in our newsletter a week or so ago. It will now be at:

**6.30pm on Thursday 16th April**

To ensure you get your invitation, complete our survey questionnaire including your email address, [available here](#).

If you have already completed the questionnaire – many thanks, and we look forward to seeing you on 16th.

The Energy Equality project is looking to develop new solar PV generation installations in the Wadebridge area along with peer-to-peer electricity trading. Peer-to-peer trading allows local homes and business who produce solar electricity to trade their surpluses with homes and businesses who do not, at rates which are beneficial to both.

For more information, go to our [web page](#) to watch WREN Technical Director Chris Coonick explain.
