

sunshine tariff trial

get involved in an exciting trial to:

reduce your electricity bill

take better advantage of UK's **renewable** generation

Enjoy reduced electricity prices over summer days.

We know British weather is unpredictable, so just to be clear, even if it's a rainy afternoon in May, you will only pay 5p per kilowatt hour for your electricity.

tariffs

winter tariff (from signing-up to 31 March 2016 inclusive) – **evolution tariff**
13.4p per kilowatt hour

summer tariff (1 April 2016 to 30 September 2016 inclusive) – **sunshine tariff**
5p per kilowatt hour (10am to 4pm)
18p per kilowatt hour (4pm to 10am)

benefits

no standing charge

all prices include vat

transparent and accurate electricity bills with a new smart meter

more decarbonised electricity (cleaner generation instead of polluting fossil-fuel generation)

no exit fees

get involved!

we are looking for four groups of 60 volunteers each

sunshine tariff trial

get involved - which group best suits you?

The **sunshine tariff** saves you over 60% on your bills when using electricity between 10am-4pm compared to using it at other times

How and when you use electricity is up to you, but whether it's laundry, home-working, family meals or simply watching catch up tv – we'll let you know how you could generate big savings

it's up to you, group 1

We will provide you with some tips at the start, but once you're signed up, it's up to you what you do

notifications, group 2

How low can you go? We will provide you with some tips at the start, and during the trial we will remind you of many easy ways you can save money

immersion heater only, group 3

This group is all about generating savings when you heat your water. You don't need to do a thing. We'll use a timer to connect you to the cheapest possible electricity and save you money

as many electrical devices as you have, group 4

Let's go all the (electrical) way! Do you have devices such as an electric storage heater, air-conditioning, heat pump, water heating, underfloor heating or electric vehicle charging? We'll use a smart controller to connect you to the cheapest possible electricity and save you money
